The Chill-Its® 6702 Cooling Bandana is an evaporative cooling headband designed to deliver instant cooling relief lasting up to 4 hours. This lightweight bandana is designed with polymer crystal technology embedded in a batting material for fast cooling without the bulk. Embedding the polymer crystals reduces uneven expansion of the polymers when wet (less bulk, more comfort).

- LIGHTWEIGHT COOLING – Batting material minimizes uneven expansion of polymer crystals when wet
- EASY ACTIVATION – Soak in cold water 2-5 minutes to activate, no ice or refrigeration needed
