

6887

WINTER HEADBAND

The N-Ferno® 6887 Winter Headband is a 2-layer, fleece-spandex headband for bulk-free warmth in mild to extreme winter conditions. The interior is lined with a heat-trapping, grid polyester fleece for breathable thermal protection, and the outside is a stretchable spandex/polyester blend that adds protection while maintaining a flexible fit for most head sizes.

Features

- THERMAL FLEECE LINING – Heat-trapping grid polyester fleece for warmth in mild to extreme conditions
- STRETCHABLE SPANDEX – Spandex/polyester blend comfortably fits most head sizes
- BREATHABLE – For lightweight, comfortable warming
- LOW-PROFILE – Can be worn alone or under hard hat
- CONTOURED DESIGN – For full ear and forehead coverage
- REFLECTIVE ACCENTS – Keep wearers safe and seen

Applications

- Construction
- Transportation
- Warehousing
- Weekend activities: hunting, running, cycling
