

SKULLERZ®
HEAD ♦ PROTECTION

BUMP CAPS

MAX HEADROOM? NOT HERE.

Built for the legion of fearless pros who go headfirst (sometimes literally) into small spaces and confined quarters. Those tight places where head-knock hazards abound but a hard hat just won't fit...enter Skullerz® Lightweight Bump Cap: the next generation in head protection.

Sometimes hot and heavy can be a good thing...but not when it relates to what you're wearing. Hot and heavy have long been common complaints against traditional bump caps. Skullerz® Lightweight Bump Caps take aim at both of those. Weighing in at 40% lighter than our original Skullerz® 8950 bump cap,

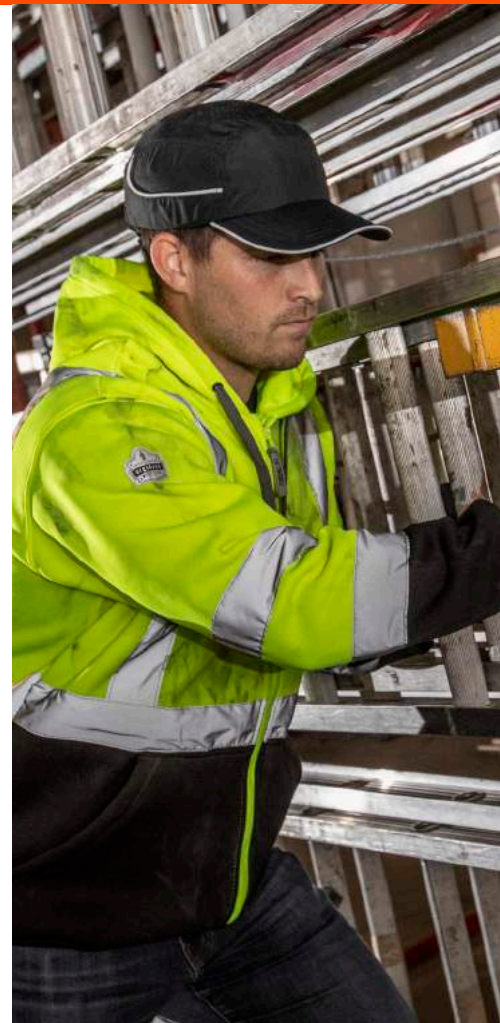

40% LIGHTER. UNQUANTIFIABLE COOL.

the Lightweight Bump Caps deliver the same safety you've come to expect, but with significantly less weight so you stay comfortable and focused.

We upped the comfort factor by adding ventilation all over the hat and the shell for max airflow. The hat itself is a light, airy mesh for breathability, and the shell is a lightweight HDPE designed with strategically placed vents to channel airflow and vent out excess heat. Plus the comfortable padding further works to move out heat, while keeping your noggin protected from any bumps along the way.

**WELCOME THE NEXT
GENERATION OF HEAD
PROTECTION.**

{INTRODUCING}

SKULLERZ® BUMP CAPS

LIGHT ON WEIGHT, BIG ON SAFETY

Skullerz® Lightweight Bump Caps have your cranium covered with cool, lightweight protection that meets the only bump cap standard in the world, EN 812-2012. A vented baseball-style hat and lightweight shell with strategically placed vents help you keep your cool. To shine some light on the situation, optional LED lights offer hands-free lighting for work at night or in low-light conditions. Reflective accents on the brim and the side of the hat keep you seen.

CUSTOMIZE YOUR CAP.

YOU'VE GOT OPTIONS

Three brim lengths let you choose the look and feel that's right for your job. The micro brim offers upward visibility while the long brim is great for blocking sun and bright overhead lighting. The short brim length offers both upward visibility and shade.
